

Ps Rental Orders

For Sage PFW ERP

Rental Order Entry

- Enter rental orders just like you would sales orders.
- Input multiple ship-to addresses per bill-to addresses, as well as different pricing, preferred warehouse, salesperson, territory, and taxation for each location.
- Automatically create backorders. Check inventory and customer information while entering the rental order.
- Easily process prepayments and cancellations. Utilize flexible pricing schemes, rental periods, price breaks, and price specials to match complex pricing rules.
- Enter unlimited line item comments for detailed accuracy.

Seamless Integration to Sage PFW With Real-Time Updates

As you enter rental orders and invoices into Ps Rental Orders, your Sage PFW files are immediately updated, in real time, maintaining the integrity of your inventory and your business.

Reporting

Track rental order status, inventory commitments, rental history and rental units on rent by multiple criteria. The close relationship with Sage PFW accounts receivable and inventory modules allows for detailed rental income statements.

Compatibility

Ps Service & Repair is compatible with Sage PFW V5.4+

Invoice Memo

If you are in the business of renting out equipment to your customers, you no longer need to use a third party application which is not compatible with your Sage PFW financial modules. The Perryman Easy Solutions, Ps Rental module provides a comprehensive, yet user-friendly solution for you to track all aspects of your rental business.

You can enter rental orders on the same screen as your sales orders, track detail contract or job information and invoice your customers manually or have the system schedule invoicing for you. At the same time you have a seamless interface with your Sage PFW financial modules.

From developing innovative solutions to providing award-winning customer support, Perryman Software is dedicated to surpassing your expectations in all aspects of our business.
