

## Ps Service and Repair

For Sage PFW ERP

### Comprehensive Work shop Management

Manage your service and repair work-shops with comprehensive work orders. Capture all the necessary tasks and materials needed for the job so that your employees know exactly what is expected at every stage of your operation.

### Seamless Integration with Sage PFW

Materials used in your service operations are pulled directly from the Sage PFW inventory. This seamless and real-time update of your inventory extends the integrity of your system.

### Barcode Technology

Use barcode technology to accurately record labor time and materials used in your workshop.

### Powerful Point-in-Time Reporting

- Accurately track the costs and activities at every stage of the service and repair operation.
- Print detailed estimates for your Customers.
- See the actual efficiency of your workshop with the estimate vs. actual analyses.
- The close relationship with Sage PFW accounts receivable and inventory modules allows for detailed rental income statements.

### Compatibility

Ps Service & Repair is compatible with Sage PFW V5.4+

**SAGE PFW**

At Perryman Software, we work to help people and businesses realize their full potential.

The screenshot shows the 'Service Maint' software window. It features a menu bar with options like 'Work Order Number', 'Print W/O', 'W/O Estimate', and 'W/O Actual'. Below the menu is a tabbed interface with 'Work Order Info' selected. The form contains the following fields:

- W/O Number: 0000000000
- W/O Description: Engine Maintenance
- W/O Type: 01
- W/O Date: 10/24/2001
- W/O Class: (empty)
- Status: C
- Unit ItemKey: HEIN-2063-M-GRM-M
- Unit Serial: 12345
- Description: Heinz Dyno Driver 1, Men, Graphite, std
- Unit Location: FLRDA
- Quantity: 0.00
- Prop Del Date: 01/03/2002
- Delay Code: (empty)
- Units Hours: (empty)

At the bottom, there are tabs for 'Main', 'Billing/Receiving Info', and 'Customer Information'. The status bar shows 'Demo Golf, Inc.', 'Admin', '12/11/2001', and '12:01:27 AM'.

Keeping track of the costs, labor and materials used to service and repair equipment can be a demanding task if you do not have the right software. The solutions present in some manufacturing modules are often too overwhelming for a simple service and repair operation.

The Perryman Software Ps Service and Repair Module for Sage PFW provides a simple yet robust solution for you to accurately track the labor and materials used in the service and repair process. By accurately recording the time and materials used to perform a job, you empower your shop supervisors with the necessary information to enable them to improve the efficiency of your workshop.

Make detailed and informed estimates for your customers and increase the bottom line of your service and repair operations. Ps Service and Repair module of is the tool that allows you to reap these benefits.

From developing innovative solutions to providing award-winning customer support, Perryman Software is dedicated to surpassing your expectations in all aspects of our business.
